

SAFETY & TRAINING

At Northland Constructors we realize that our employees are our biggest asset. We provide up to date training and state of the art equipment to ensure our employees can perform their jobs in a safe and proficient manner. We continually monitor and improve our Safety plan based on regulatory changes as well as employee suggestions. We have made a commitment to provide a safe work environment for our employees as well as our subcontractors and customers.

Our keys to success include:

- In-house and Union based Training programs
- Thorough employee orientation
- Pre-employment physical and Drug Testing
- A Safety Incentive Program
- Substance Abuse Programs
- Weekly Safety Meetings
- Environmental Protection Policies
- Thorough near-miss and accident investigations
- State of the art equipment

Our commitment to safety and environmental training extends throughout our company. We provide thousands of hours of training in house every year including: First Aid/CPR, MSHA, OSHA 10 & 30, NCCER Pipeline Safety and Operator Qualification, Forklift, and Aerial lift training. All of our leaders hold a minimum of OSHA 30 hour cards, HAZWOPER Certification, Erosion and Sediment Control Certification. Our employees carry that commitment throughout the off season as well, taking several hours of Union Based training each year.
